APPENDIX 5

ENVIRONMENTAL POLICY

SBS is a manufacturer and installer of Zincalume® panel tanks. As a company we believe in the constitutional right of all employees, clients and communities to exist and work in an environment conductive and sustainable development and are committed to the highest standards of environmental protection throughout all phases of construction by upholding the basic principles of environmental management.

The company has recognized the impacts of its activities, products and services on the environment and confirms its total commitment to the Environment by complying with relevant environmental requirements which will complement our successful health and Safety system.

The company and its employees are committed to the process of Continual Improvement and will continually strive to protect the environment, prevent pollution, reduce or eliminate waste and emissions to air, water and ground.

The Continual Improvement process is underpinned by the following fundamental goals:

- Implementing environmental management programs.
- Defining environmental objectives and targets.
- Monitoring and measuring key environmental indicators.
- Continual improvement to enhance environmental performance.
- Ensuring that we comply to fulfil its compliance obligations with relevant environmental legislation, regulations and other requirements which relate to our environmental aspects.
- Prevention of pollution through waste minimization, reduction in natural resource consumption, and reduction of effluent and emissions.
- Creating a workforce that is environmentally aware through training and awareness.
- Ensuring that the operation minimizes the environmental impact on the surrounding community.

The Environmental policy will be communicated to all employees and to all persons working for or on behalf of the organization. The policy will be made available to interested and affected parties and other stakeholders on request.

The Directors and employees of the organization are unreservedly committed to conduct a safe and environmentally friendly business operation which will ensure that the company is the first choice supplier in the markets we serve.

Mr. D.C Gray
CEO
